IT in Primary School

Alina Žilienė

Druskininkai

2015-12-11

- I am a primary school teacher.

- I work in Martynas Mazvydas progymnasium in Taurage.

- There are good conditions for the use of IT in the educational process in our school. We have 2 computer classes, projectors and a printers.
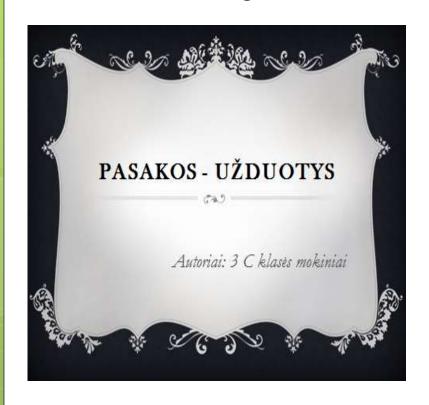

IT in Primary School

- IT in primary education is very important and useful.

- Personal growth and training for traditional and digital media and a variety of methods quite high.

- IT Programs encourage students' creativity, initiative and improving their digital literacy.

Young Writers and Computers
(MS Word)

- Children like writing and publishing interesting entertaining stories and books:

PASAKOS - UŽDUOTYS

Autoriai: 3 C klasės mokiniai

NEPAMIRŠTAMA VASARA

Rengė: M. Mažvydo progimnazijos
3 C mokinė N. Jokubaitytė

Presentation programs

We create visual aids that make learning more attractive, expressive and clear understandable:

- MS PowerPoint (Officce.com)
- Prezi (Prezi.com)
- PowToon (Powtoon.com)

MS PowerPoint Program

- We make animation with program ABCYa.com

- ABCYa.com - a colorful and intuitive interface, 100 frames, grouping, arranging and over 100 images.

We also use...

- TUX of Maths Command (the game that helps kids practice their math facts)
- TUX Paint (drawing program)
- Internet, E-mail

Keyboard Trainers:

- http://www.lietutis.lt/
